

Matthew Smalley

Engineering Career: Application

Experience

May 2026 – August 2026

Aerospace Operations Engineering Intern: Woodward Inc (Niles, IL)

- Optimizing surface mount technology processes for PCB assembly
- Applying Creo and 3D printing to optimize fixtures for SMT machine handling
- Managing engineering review processes within SAP and Windchill
- Identifying and implementing solutions supporting new product introductions for military flight control systems and actuation systems
- Leading a team to complete internal projects to eliminate identified constraints
- Reading and reviewing drawings with GD&T

May 2025 – August 2025

Mechanical Engineering Intern: Richardson Electronics (LaFox, IL)

- Optimizing and creating circuit board layout design
- Applying SolidWorks to design fixtures improving cycle time efficiency
- Working with engineers in lab-machine and process improvement
- Implementing solutions for fixing critical stoppages in circuit board assembly
- Programming select solder machines to improve quality impacting scrap costs per cycle

August 2023 – Present

Community Advisor: Northern Illinois Housing (DeKalb, IL)

- Maintaining a positive floor environment while addressing rising issues
- Communicating with students to settle housing concerns
- Working with housing staff and law enforcement for dispute resolution

April 2021 – August 2023

Supervisor/Lifeguard/Instructor: Goldfish Swim School (Glen Ellyn, IL)

- Coordinated action items between management and teaching staff
- Leading employee teams to improve safety protocols and lesson quality

References *(Available on Request)*

Mark Garafolo - Senior Engineering Manager (Woodward Inc: Niles, IL)

Brian Gumino - Engineering Manager (Richardson Electronics: LaFox, IL)

Crystal Camacho - Housing Coordinator (Northern Illinois University: DeKalb, IL)

Motivated and adaptable applicant pursuing a career to further develop skills and experience contributing as a team member addressing and developing cost-effective solutions to real-world situations

Education

August 2023 – Present

Northern Illinois University

- Mechanical Engineering student
- Yr4 of 5yrs Master's Program
- GPA: 3.85
- Dean's List
- President for Pi Tau Sigma
- Treasurer for NIU Jui-Jitsu Club

Skills

- ✓ Creo/SolidWorks
- ✓ SAP/Windchill
- ✓ 3D Printing
- ✓ Reviewing GD&T
- ✓ Identifying and Solving Systematic Process Issues
- ✓ Communication in Cross Function Teams
- ✓ Leadership in Engineering Teams

Projects

- Bionic Hand
- Select Solder Carrier for Circuit Boards
- Inverter Board Manufacturing Process
- Reflow Oven PCB Fixture
- Layout Design for Circuit Board Assemblies
